

Request for eChecking Account

I understand in order to become eligible for an eChecking account I must *qualify* and conduct business using the following *electronic* products and services. I understand there will be a \$3 per transaction fee if any transactions are conducted in person that could be completed through one of Power 1 Credit Union's automated services and/or our audio-response systems.

Required elements to be eligible for an eChecking account*

- * A Power 1 checking account in good standing
- * Visa Check Card
- * eStatements
- * Home Banking
- * Bill Payment

In order to maintain use of this account, I agree to maintain activity on **all** of the above services. Failure to maintain activity for a 60-day period will lead to cancellation of services and eChecking account status. My signature below specifically authorizes any joint account owner to access my account and allows Power 1 Credit Union to review any financial data (including credit reporting agencies) necessary to make a determination on this request or on any periodic basis needed to maintain my account privileges.

** eChecking accounts do not earn interest on balances. A valid email address must be established upon signing up for eStatements, Home Banking, and Bill Payment. Members will need to promptly notify Power 1 of any changes to prevent an interruption of service. With Bill Payment, you must pay at least one bill each month to avoid the \$4.95 monthly fee.*
