SUMMER 2017

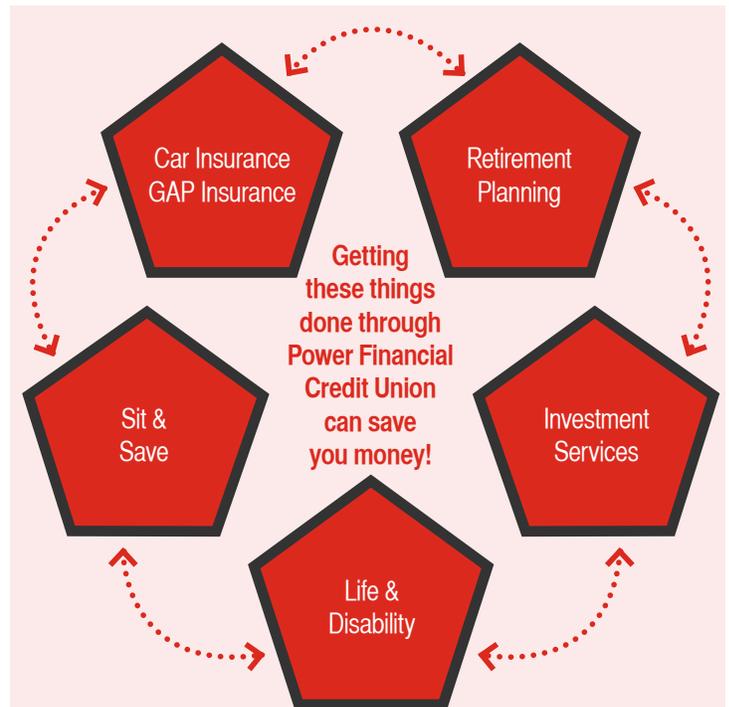

THE MURPHY FAMILY

## HAVE YOUR NEW YEAR'S RESOLUTIONS GONE BY THE WAYSIDE?

Where has the year gone? Here we are halfway through the year and for some that could mean it's time for an honest review of the promises you made to yourself before the new year began. Each year, 45% of Americans make at least one New Year's resolution (for comparison, about one-third of Americans watch the Super Bowl). If you're like most people, you probably forgot about your resolution before the halftime show even began! While you may have had the best of intentions to write off those bad habits six months ago, many people break their resolutions only 30 days later. Fast forward to the end of the year and only about 8% stay true to their original goals.

In addition to self-improvement and health-related goals, more and more people are adding better money management and debt reduction to their top 5 list of things to focus on. A healthy financial outlook is increasingly important to your personal wellbeing and Power Financial Credit Union can help you get back on track. After all, there is still almost half the year remaining to make up for lost ground.

There are many benefits to being a member of Power Financial Credit Union. First and foremost, we can help you get lower rates on insurance, including auto insurance and life insurance and yes, even discounts on dental. Protecting our family members is our top priority, which is why we help with insurance, retirement and planning too. We understand your needs and will soon be adding even more benefits including Health and Long Term Disability Insurance. Power Financial Credit Union provides financial solutions to improve your life.

### More insurance options:

- Auto
- Life
